A CARD.

J. Higginbotham & Son,

THE DRUGGISTS,

Keep all the requisites of a FIRST CLASS DRUG STORE.

We have all the leading lines in Perfumery.

We have a splendid stock of Fancy Goods in Plush
Cloth and Leather.

We have almost every patent medicine advertised.

We make a Specialty of filling prescriptions and
private recipes.

We believe quality in medicine is the most important
requisite

We keep Lubin's, Ricksecker's, Warwick's, Lund-
borg's and all English, French and American Perfumes

We have an immense stock of Hair, Tooth and Nail
Brushes, Dressing Cases and Toilet articles.

J HIGGINBOTHAM & SON.

J. HIGGINBOTHAM & SON,

THE DRUGGISTS.

We are proprietors of the old time remedy, Binge's
Compound Syrup of Horehound, for Coughs and Colds
Large Bottles only 25 Cents

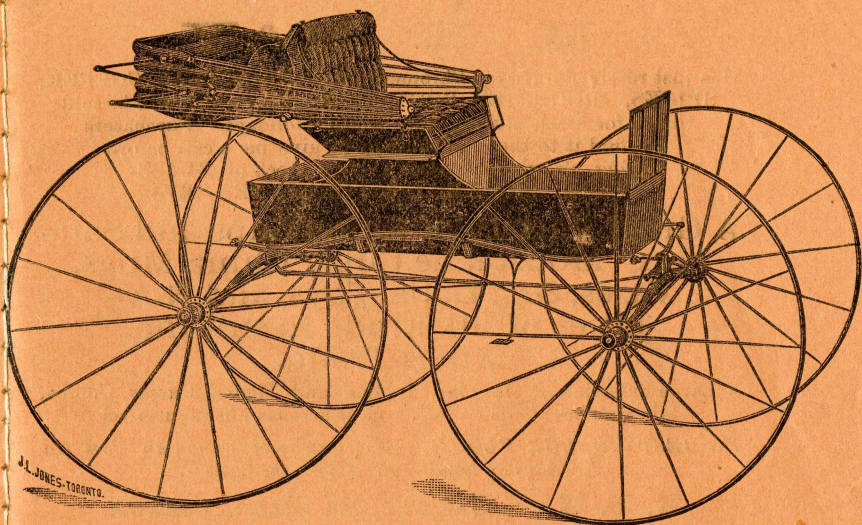

We are proprietors of "The Winter Fluid" recom-
mended by many of our customers for Chapped Hands,
Sore Lips, Rough skin. Large Bottles, 25 Cents.

We are sole agents for Dr. Karl's Dandelion Pills,
which have such a wide reputation. They are easily
taken, elegantly coated, and have this advantage
over all others in not leaving the person costive
after taking. We mail them all over the
Dominion. Two sizes, 15 and 25 cents a
box. We believe them to be the best
and cheapest in Canada

Also our own Corn Cure, our own Tooth Powder,
Prairie Flower Condition Powder, and in fact every-
thing in the drug line.

J. HIGGINBOTHAM & SON,

Simcoe St. North

—THIS IS THE—

✱McLAUGHLIN IMPROVED PATENT BUGGY,✱

The most popular, and the people's favorite

NEW PATENTS FOR 1886.

The Noiseless Axle, Noiseless Whiffletree Irons, Improved steel fifth wheel and king bolt. We guarantee one sett of combination Patent Axle Washers, if kept well oiled, to run

FIVE THOUSAND MILES.

A new construction composed 1st, of Rubber Washer or other Elastic Material acting as a cushion to kill the noise. 2nd, of hard tempered brass for each end of box to run against. We guarantee the axle noiseless, producing easier draft on horse, and longer wear on axle. The new whiffletree iron is packed with Rubber and Brass or Steel and is noiseless.

In this buggy you have, 1st, the easiest riding; 2nd, the stillest running; 3rd, the most durable; 4th, repairing reduced to a minimum; 5th, we give you the best and most convenient Top in the Dominion; 6th, for style, finish and good material second to none.

MANUFACTURED BY

R. McLAUGHLIN.

Oshawa, Sole Inventor and Patentee.

The Latest News.

LATEST U. S. POSTAL REGULATIONS.

There are four classes of mail matter, divided as follows:

FIRST CLASS.—*a*, letters and postal cards; *b*, all matter wholly in writing (except manuscript for publication), *when accompanied by proof-sheets*, corrected or not; *c*, matter partly in print and partly in writing (certain exceptions noted below); *d*, packages so wrapped, sealed or secured that their contents cannot be readily examined. The rate of postage on mail matter of this class (except postal cards) is two cents per ounce or fraction thereof. No exception in the case of unsealed letters, or letters for delivery in this city.

SECOND CLASS.—Newspapers, magazines and other periodicals issued at stated intervals not exceeding three months, dated and numbered, having a list of legitimate subscribers, and not designed primarily for advertising purposes, nor for circulation free, or at nominal subscription rates. When sent by the publishers or news agents, the rate of postage is one cent per pound, payable in currency; and when sent by others, one cent for each four ounces, payable by postage stamps. The above rates apply also to foreign publications of the same character as those named above.

THIRD CLASS.—Printed books, pamphlets, circulars, engravings, lithographs, proof-sheets and manuscript accompanying the same, transient newspapers and periodicals (*except those belonging in the second class*), and all matter of the same general character, and not having the character of personal correspondence. Circulars produced by hektograph or similar process, or by electric pen, are rated as third class. Upon matter of this class, or on its wrapper, the sender may write his own name, preceded by the word "from;" may mark any printed passage to call attention to it; may write date, address and signature of circulars, correct typographical errors, and write on cover or blank leaf of any book or of any other printed article of the third class, a simple dedication or presentation inscription not in the nature of personal correspondence. One cent for each two ounces.

FOURTH CLASS.—Merchandise and other articles not liable to damage other mail matter. Upon this matter the sender may write his name and address,

preceded by the word "from," and may also write the quantities and names of articles inclosed. One cent for each ounce.

UNMAILABLE.—Liquids, poisons, explosives, ointments, pastes, fresh fruits and vegetables, animals, alive or dead; articles having an offensive odor, obscene and indecent books, prints or other like articles.

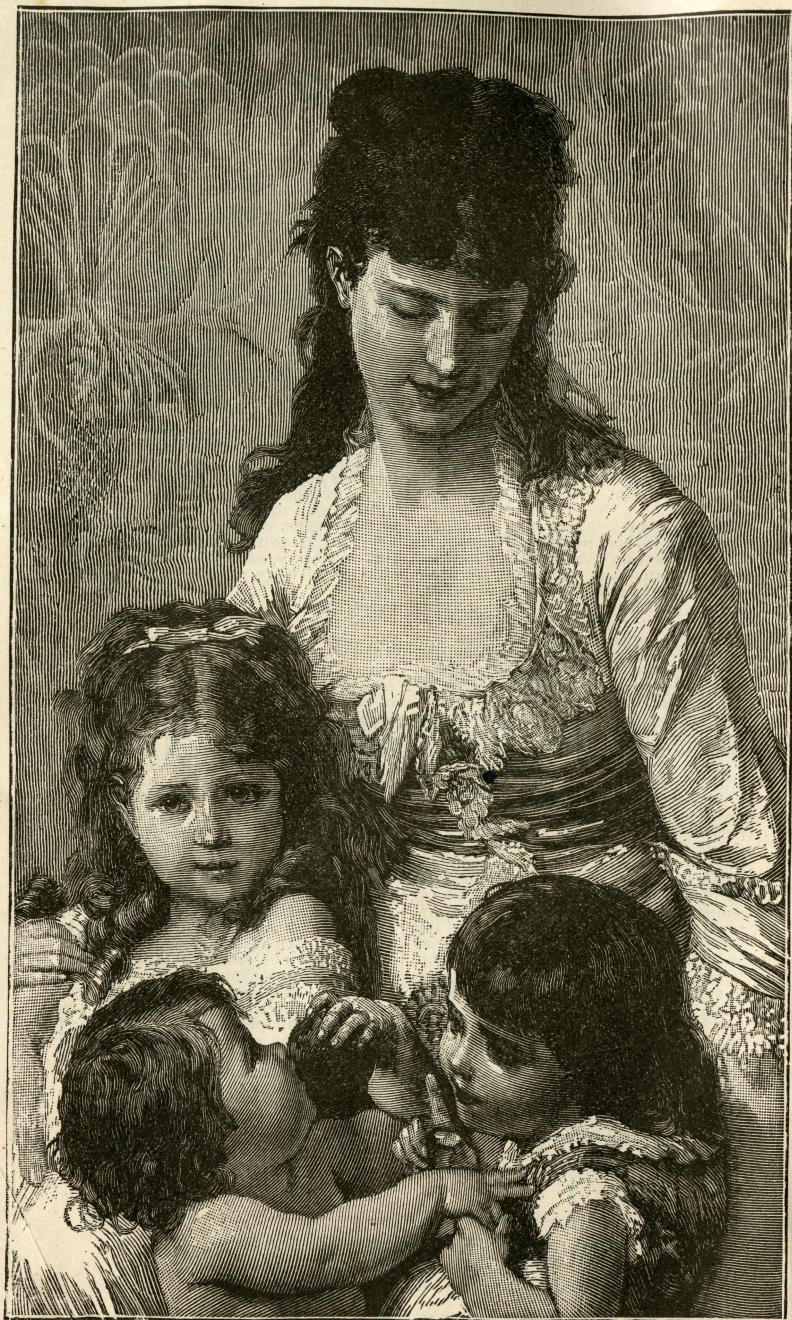

MISCELLANEOUS INFORMATION.—Letters and postal cards directed to a person who has removed, or is temporarily absent from his usual place of residence, will be forwarded, on his request, free of charge; but no mail matter of the second, third or fourth class can be so forwarded except charged with additional postage in full. Postal cards bearing on their face side any message or part of a message, written or printed, other than the address, are unmailable.

FOREIGN MAILS, ETC.—The rates of postage to the countries composing the "Universal Postal Union" are as follows: On letters, five cents for each half ounce or fraction thereof—prepayment optional. Double rates are collected on delivery of unpaid or short-paid letters. On newspapers, books, pamphlets, photographs, sheet music, maps, engravings, and similar printed matter, one cent for each two ounces or fraction thereof.

CANADA (including Nova Scotia, New Brunswick, Manitoba and Prince Edward's Island): Letters, two cents for each half ounce; books, circulars and similar printed matter, one cent for each two ounces or fraction thereof; second class matter, same as in the United States; samples of merchandise (no dutiable articles or articles of intrinsic value admitted), ten cents for each package, which must not exceed eight ounces in weight—prepayment compulsory.

REGISTRATION.—Letters and packages can be registered on payment of ten cents and full postage. The name and address of the sender must be indorsed by him on each letter or package. Mail matter may be sent registered to any post-office in the United States, Canada, or in any of the countries of the "Universal Postal Union."

MONEY ORDERS.—Money orders, limited to \$100 each, payable in the United States, can be obtained at any post-office.

ECLIPSES, Etc.

In the year 1886 there will be two Eclipses.

I. An Annular Eclipse of the Sun on March 5, visible in the United States as a Partial Eclipse. This Eclipse begins at Philadelphia about half a minute before sunset; but the first contact of the moon's limb with that of the Sun will probably be below the horizon, and will be invisible unless an unusual refraction at the horizon should reveal the contact for a short time. At New York City the Eclipse does not begin until about four minutes after sunset. At Washington, D. C., it begins about ten minutes before sunset. Farther East and North no Eclipse is visible.

II. A Total Eclipse of the Sun on the morning of August 29, visible as a Partial Eclipse in a part of the United States. This Eclipse is not visible at Chicago, being beyond its northern limit; nor at San Francisco, which is beyond its western limit.

PLANETS BRIGHTEST.

Mercury, on January 8, before sunrise; March 21, after sunset;

1st Mo. JANUARY. 31 days.

The year 5,647 of the Jewish Era begins September 30, 1886.

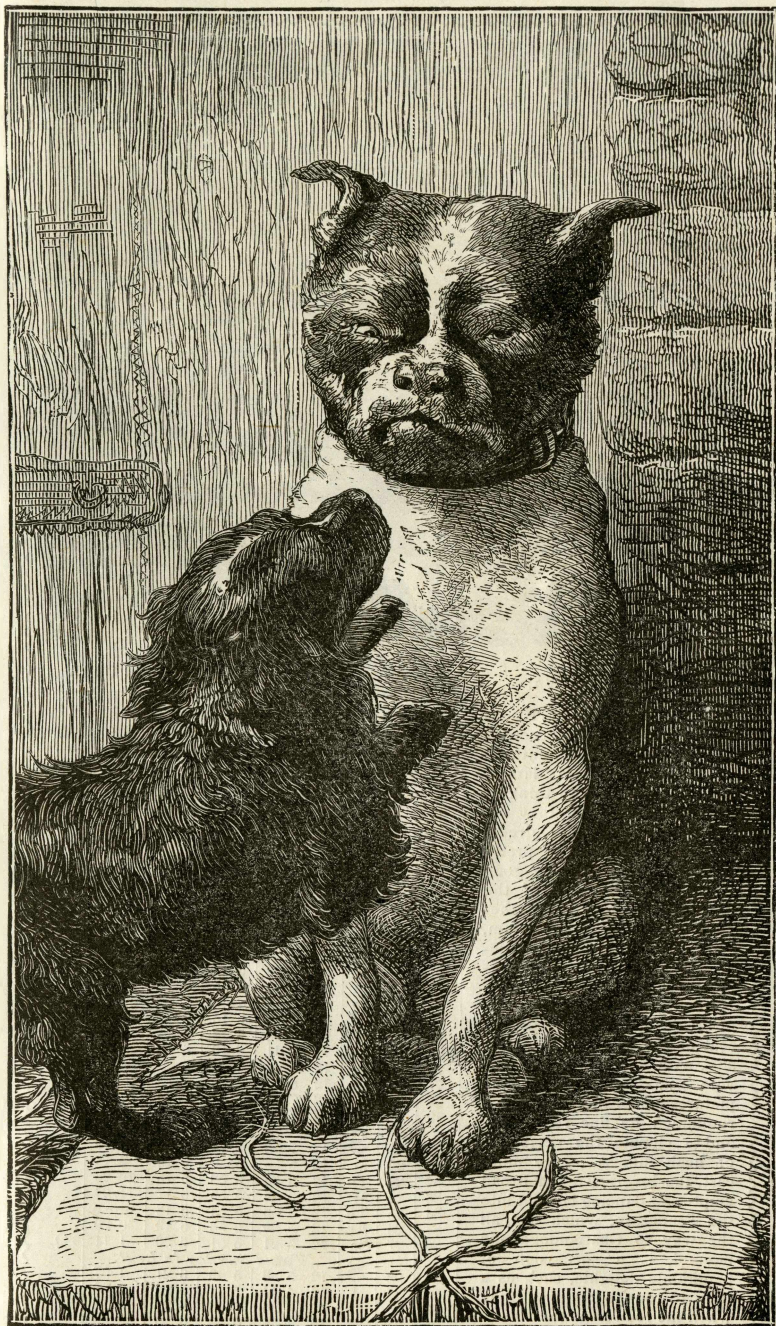

A REMARKABLE rock called "The Knight Templar Rock" is situated at Lundy Island, mouth of the Bristol Channel, and receives its name partly from the island having been granted to the Knights Templar in King John's time, partly because the rounded rock forming the head is supposed to resemble the peculiar cap which the knights wore when they doffed their helmets. What a rugged, sagacious-looking old rock it is, peering out oceanward with the keen watch of an experienced sea-captain! Think of it—the face of man! and yet the rocks wore that form, and received that expression which associates them with the human, thousands of years before even one earthly face appeared upon the scene of action.

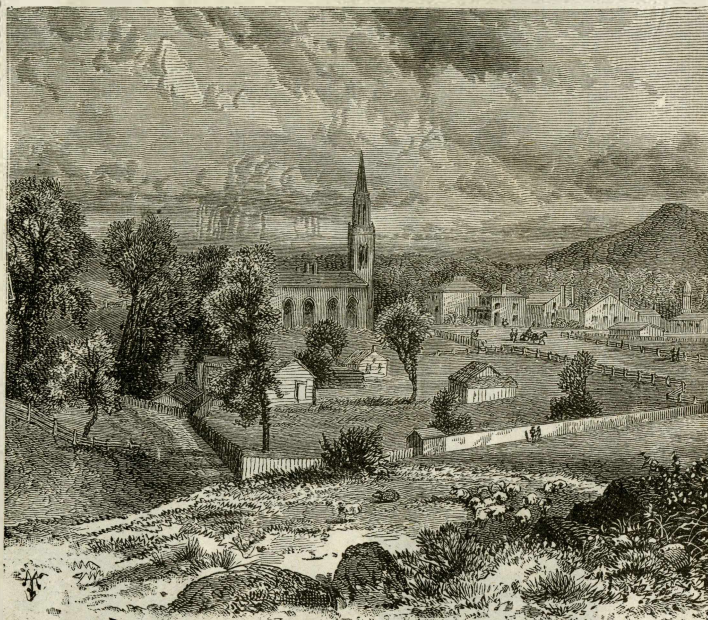

COACHES were first used in England in 1569.

ENTIRELY TOO FRESH! — Specht.

WYTHEVILLE, VA.

WYTHEVILLE, VA., and Knoxville, Tenn., may be accepted as fair types of the Southern towns, smaller and larger. Those accustomed to think of New England when they see neatly kept homes, green, shady streets and a pretty church, will find a very good reminder in the view of the little Virginian city. Wytheville possesses a fine alum, sulphur and iron spring, a delicious climate, a healthful region and beautiful scenery. Knoxville is a flourishing city of about 16,000 inhabitants, the seat of the Tennessee University, with fine public and private schools, noted for the picturesque beauty of its surroundings, its fine residences, and a climate the perfection of healthfulness. Five miles east, the lovely French Broad empties its dancing current into the Tennessee, which last, all the way to Chattanooga and beyond, is a succession of panoramic delights, such as a railroad tourist can only enjoy when the road hugs the stream

○ADAMSON BROTHERS.○

ITALIAN WAREHOUSEMEN.

WE desire to tender our most sincere thanks to our numerous customers in OSHAWA and DISTRICT for their very liberal Patronage during the six months which we have now been in business.

While we have done our best to merit the confidence of the Public it is MOST GRATIFYING to us to confess that the support which our efforts have met with has far exceeded our expectations.

We therefore accept the inference that the QUALITY OF OUR GOODS, AND STYLE OF DOING OUR BUSINESS, commend themselves to the Public of this District; and we promise our Patrons that as in the past, so in the future, nothing will be wanting on our part.

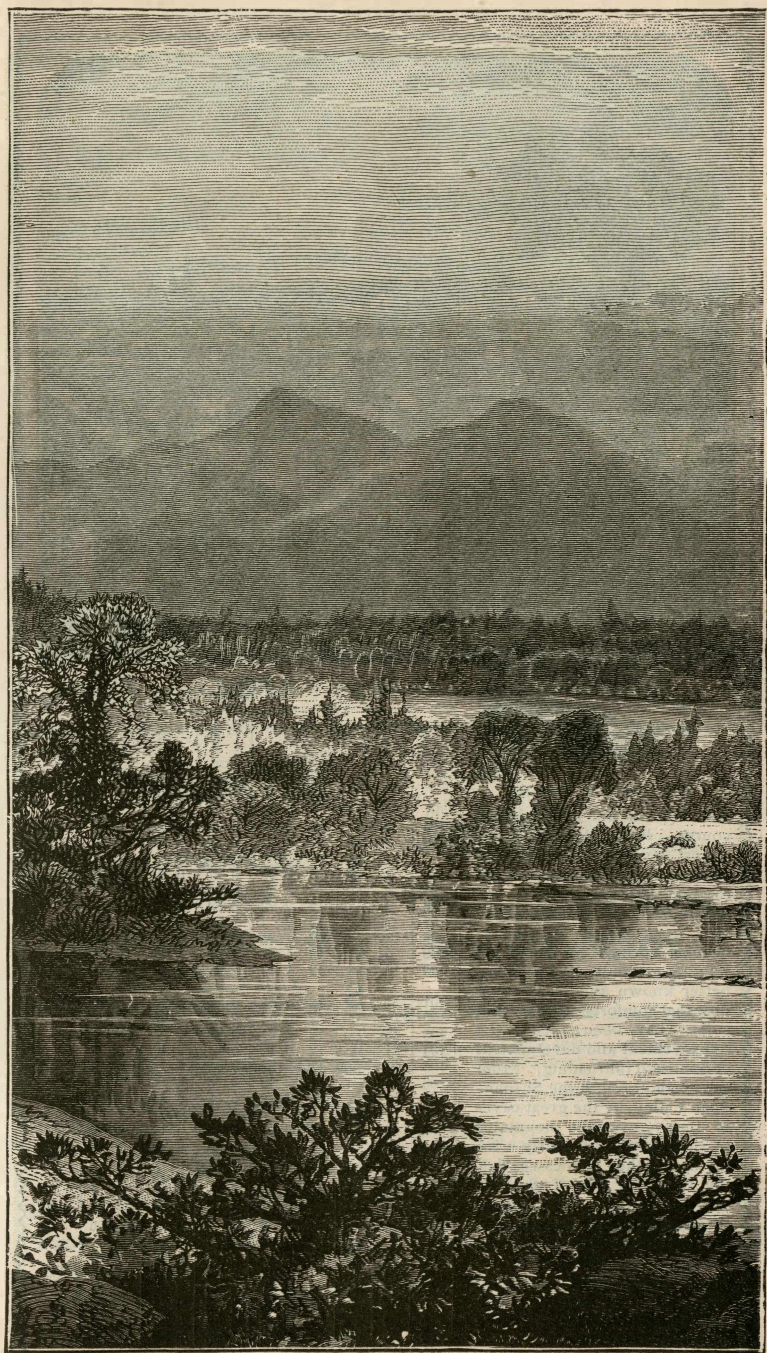

1st.—TO SECURE FOR THEM EVERYTHING OF THE VERY BEST QUALITY, AND CHOICEST BLENDS.

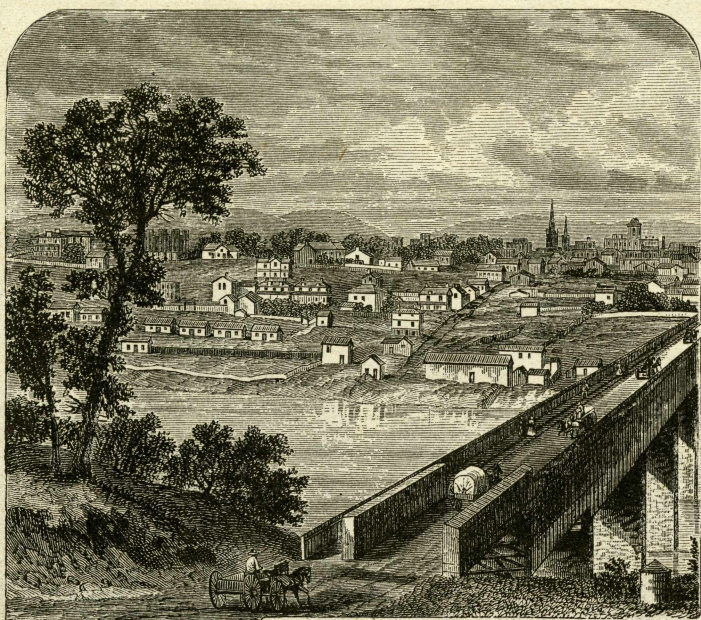

2nd.—TO RETAIL THEM AT THE MOST REASONABLE PRICES.

○ADAMSON BROTHERS.○

CHINA HALL.

Opposite Steele Bros. Old Stand.

KNOXVILLE, TENN.

and follows all its eccentric course. From Knoxville, in almost every direction, the summer tourist may branch off to the rarest attractions of nature, wild and pastoral beauties, unsurpassed anywhere; healing springs or plenteous hunting grounds, all becoming better known and fashionable now that comforts of travel and sojourn have been added by the improvement and development of Southern railroading. From the north, through the Shenandoah Valley, by the great caves of Luray, over the mountains at an elevation of nearly 1,800 ft., down the Tennessee Valley, the great tide of pleasure travel now flows, spreading out through all the romantic mountain regions of East Tennessee, Northern Georgia and Western North Carolina, where for every 300 ft. of elevation they get the equivalent of a degree of latitude northward.

How like a queen comes forth
the lovely moon

From the slow opening cur-
tains of the clouds;

Walking in beauty to her mid-
night throne.

—Croly.

THE ocean's surfy, slow, deep
mellow voice, full of mystery
and awe, moanin' over the dead
it holds in its bosom, or lullin'
them to unbroken slumbers
in the chambers of its vasty
depths.—Haliburton.

ABRAHAM LINCOLN'S parents, in March, 1830, moved from their forest home in what is now Spencer County, Indiana, to Illinois, settling ten miles west of Decatur, where they built a log house on the north fork of the Sangamon, and cleared fifteen acres of land, for the fencing of which Abraham split the rails. He was then just approaching twenty-one years of age, six feet four inches tall, and the champion wrestler of the neighborhood. After attaining his majority he spent a year or two working at odd jobs for the farmers, and made his first public speech; it was on the navigation of the Sangamon River, on which waters he soon afterward launched a flat-boat, and, with his half-brother, navigated it to New Orleans. This early home of the sixteenth President of the United States is shown in the cut above.

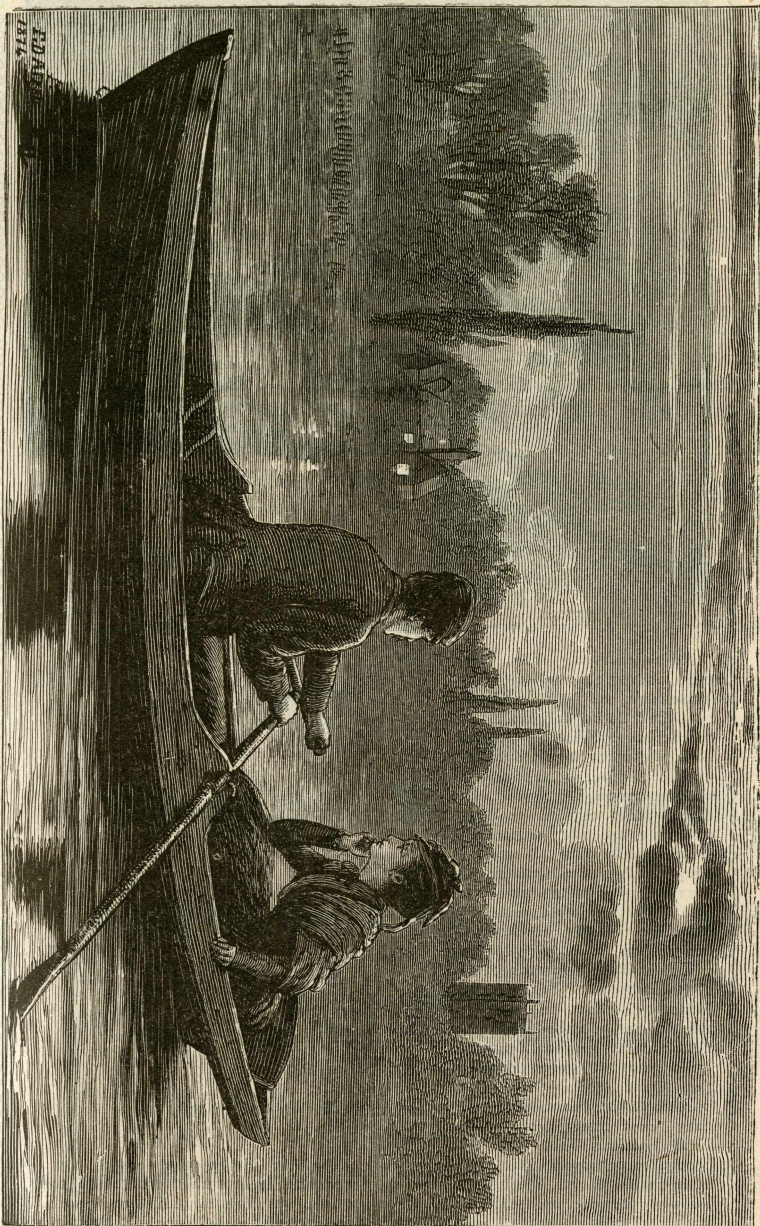

COMMON BAKING SODA is the best of all remedies in cases of scalds and burns. It may be used on the surface of the burned place either dry or wet. When applied promptly the sense of relief is magical. It seems to withdraw the heat and with it the pain.

ALPHONSE BARRAUD DEL.

EDMUND
BARRAUD

NORTHWESTERLY from Chicago, among the Dalles of the Wisconsin, the rocky beauties of Devil's Lake, and especially in the lake region of Minnesota, are springing into existence a number of summering places, which are good evidence that æsthetic features of living are not matters of small account with "Western" people. Taking advantage of the rare endowments of nature, many lovely spots are developed and changed into luxurious resorts for comfort-loving denizens of the central portion of the continent. St. Paul and Minneapolis have the lead for what might be called a permanent summer population, who build beautiful homes, in which they spend regularly the better portion of the years, having in easy reach many famous natural beauties:—the Falls of St. Anthony, now in the city limits, and Minnehaha, only a short walk from the built-up portions, with Lake Minnetonka within 15 miles, a sort of inland Coney Island, where thousands go and come

every day during the season. By no means the least attraction of these resorts, for tourists from more distant regions, is the unrivaled excellence of traveling accommodation. Nowhere else can such

refuges on either side. Going up the "East River," past the city institutions, once through "Hell Gate," no more beautiful scenes can be imagined than those afforded, on any fine day, on its gradually widening waters, with hilly, verdure-clad shores and specimens of almost every style of water-craft, from the tiny, canopied row-boat, to the giant three-decker excursion steamer, swarming with its human freight. Long Island Sound is 110 m. long and from 2 to 20 m. in width. It has numerous lighthouses, among the most notable Faulkner's Island, nearly midway in its widest part, and Little Gull Island and Race Rock, which mark the principal entrance from the Atlantic. Our picture is just off Glen Island, which is a very popular resort, where, in shady groves, the people of the city enjoy the sea breezes and seek to forget the glaring sun and baking pavements from which they have here found a temporary escape.

THE ENTRANCE TO LONG ISLAND SOUND FROM NEW YORK. — Sayre.

NASHTOTAH MISSION is a theological seminary of wide repute, which has sprung from the "mission" established for the conversion of the hereabout Indian many years ago. It is situated in a most charming spot, on the northern side of the twin Nashtotah Lakes, in a heavily wooded country, surrounded by lofty hills and picturesque ravines, in the centre of the wonderful lake system of Waukesha County, Wisconsin. From Government Hill twenty-six different sheets of water may be counted. The min-

eral springs of this county are famous all over the world. Nashtotah Mission is reached by a short ride from Nashtotah,

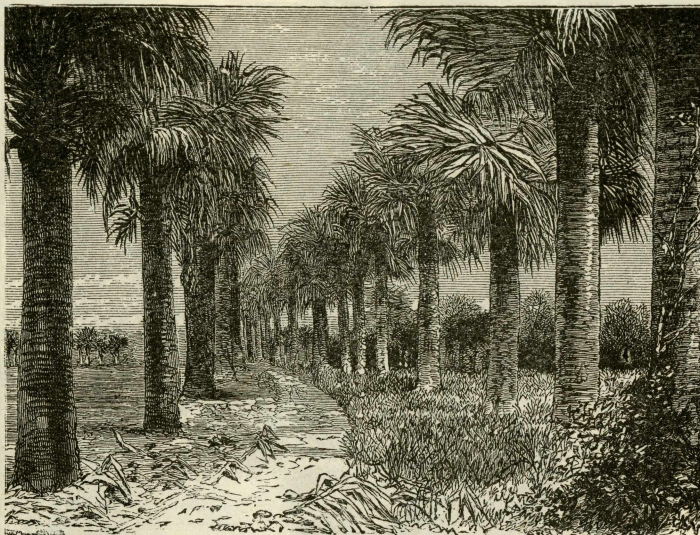

a station of the Milwaukee & St. Paul Road, only important as a starting point for the neighboring watering-places.

THE HAPPY HOURS OF CHILDHOOD. — Wilde.

PALMETTO AVENUE, FORT GEORGE ISLAND.

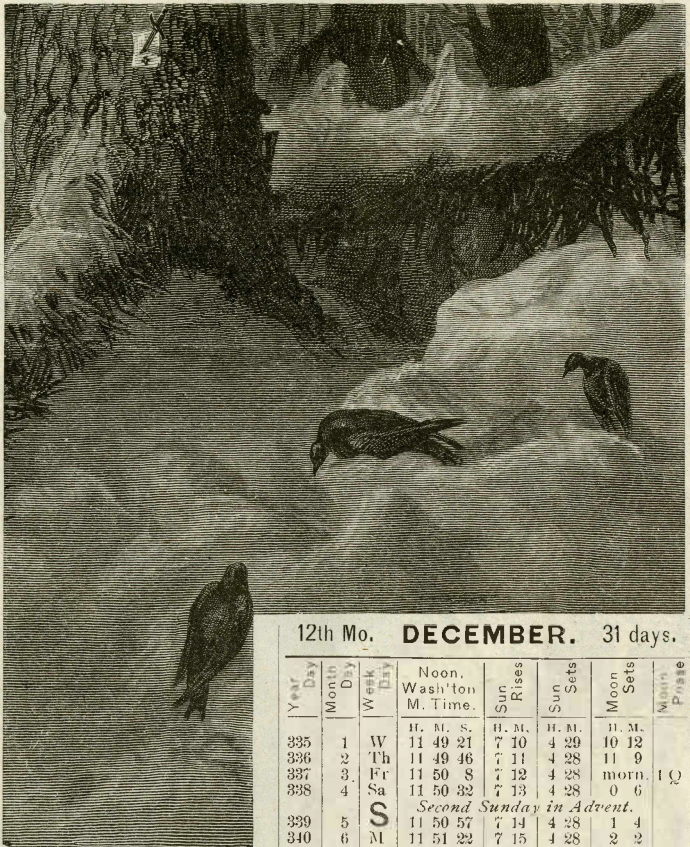

PALMETTO is the common name of the four species of palm indigenous to the United States. The largest is the tall or cabbage palmetto, which grows from 20 to 50 ft. high and 12 to 15 ft. in diameter, and is found not far from salt water, along the coast from North Carolina to Florida. This tree is the emblem of the State of South Carolina. Its principal use is for wharves, for which, in Southern waters, it is superior to all other wood, as it resists the attacks of the ship worm, which so soon riddles and destroys other piles. The logs do not splinter, and have been employed in the construction of forts, such as that on Sullivan's Island. The bud is eaten and is by some esteemed a great delicacy. Palm wine or toddy has been prepared from its juice. Blocks from the interior and softer parts of the stem are used in the South for scrubbing-brushes, the softer portions wearing away and leaving the hard fibers to act as a brush. The leaves serve for thatching out-buildings, are woven into baskets and mats, plaited into hats, and the more tender leaves afford material for light and delicate bonnets.

FLORIDA SCENERY.—Thos. Moran.

THE GAMBLER'S FATE.

WHO has not read Bret Harte's inimitable "Outcasts of Poker Flat?" And who that has, can fail to recognize John Oakhurst's grave? Pinned to the tree by the gambler's knife is the deuce of clubs, on which he wrote "John Oakhurst has handed in his checks." The foul carrion vultures are patiently waiting until the melting of the snow will enable them to reach the form so dimly outlined under its pure, cold surface.

LUMINOUS PAINT has been applied to harness with desirable results. At night the position of the horse is clearly indicated, and it does not appear that the animal is at all alarmed by his bright equipment.
